In the process I asked the user to restart the PC but PC was not holding power as it keeps shutting down although there is a yellow light on the system unit. This has been ongoing for some time now. FIX ATTEMPTS: : I asked the user to search for company portal to access the Power BI from the windows search. User says there was no result found message came up. I asked the user to restart the PC and try again; however user says the PC does not have a stable power and it keeps powering off and this has been ongoing for some time now. Reseated the cables tried a different power cable and same issue persisted....
