Please see engineer work instructions below:

Engineer should make sure that they contact star support team before communicating any work and when on site for replaceing SD card support team need to follow below instruction ->

Once a new formatted sdcard replaces the old one then the datatransfer.db from the phone memory can be removed too and then the phone should start up and when it datasyncs it should pick up the information it needs from central – need to check the shift numbers are correct i.e the next shift in sequence so that it contimues with same rspid and shift as it was whenit broke.

As the last shift (ID - 2957) is already been ended to this must be fetch by phone.

Instructions 2

Problem: [ME] 32GB SD card Root Cause: Unknown Action: Swap SD card following Engineers documentation. Contact STAR support before any action If not required return unused Test: With STAR SUPPORT URL:
