Please swap unit	Till hostname: GBBQ01207SCO81P Till number: 81 Peripheral make/model(Please copy and paste CI): BEETLE M-III System details (K1/M1/R1 found on EC portal): n/a Are there still sales are any sales left on the till?: n/a Description of Issue: I reinstalled the drivers and updated them but the colleague's display remained blank. However after calling the store the colleague confirmed that the display was indeed blank and all content was showing on the customer screen. I asked her to unplug and re-plug the colleague display cable and the ELO touch cable. Then I tried to extend the screen but the primary screen wasn't being detected. She also mentioned that after re-plugging the ELO touch cable the main display came on for a second and then went blank again so it seems there is a physical issue with the beetle port itself. Please assign this to CC for the replacement of the beetle. Contact name/number: Atreyee Sengupta +44 1942 821567
