Instructions 1	Instructions 2
GIG8 installation	Please provide the installation of a GIG8 REMANUFACTURED on September 22nd any time in the day and when on route please inform Customer about the expected time of arrival (Customer needs 20 minutes to reach the Site). Please install a GIG8 (6 bags in box + #2 bottles of spirits); choose the set up GIG8 PRO ENGLISH 2025. Customer will drill the hole when the Engineer is on Site to be sure where to drill it. Please be informed that the one way valves must be installed at 3cm. from black connectors = from bag in boxes (and not at the exit of the machine). Please use the label to stick the tubes (the labels must be sticked close to the black connectors not behind the machine). Please pay attention not to overlap the bags (the bags must not be stacked). Where to install the machine has been already defined; the bag in boxes will be placed under the machine; pay attention not to locate the boxes/bottles on the floor. The Site is at the Ground floor. The distance from machine to bag in boxes is less than 2 meters (so 30mt of tubing are enough). In case of issue please contact +44 2045772581. Once the installation is completed...
